#### 1. Summary of Significant Accounting Policies and Going Concern

#### A. Accounting Practices

The financial statements of National Mortgage Reinsurance Inc One ("Re One" or the "Company"), are presented on the basis of accounting practices prescribed or permitted by the Wisconsin Office of the Commissioner of Insurance ("Wisconsin OCI").

The Wisconsin OCI recognizes only statutory accounting practices prescribed or permitted by the State of Wisconsin for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Wisconsin Insurance Statutes. The National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures manual, version effective January 1, 2001, ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the State of Wisconsin. The state of Wisconsin has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. Specifically, Wisconsin domiciled companies record changes in the contingency reserve through the income statement as an underwriting deduction. In NAIC SAP, changes in the contingency reserve are recorded directly to unassigned surplus.

The Wisconsin Commissioner of Insurance (the "Commissioner") has the right to permit other specific practices that deviate from prescribed practices.

A reconciliation of net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Wisconsin is shown below:

- D. Loan-Backed Securities
  - (1) The Company uses widely accepted models for prepayment assumptions in valuing loan-backed securities with inputs from major third party data providers. The Company's investment policy complies with SSAP No. 43R *Loan-backed and Structured Securities* as adopted by the Wisconsin OCI.
  - (2) The Company has not recognized any other-than-temporary impairments for the six months ended June 30, 2021.
  - (3) The Company has not recognized any other-than-temporary impairments for the six months ended June 30, 2021.
  - (4) All impaired loan-backed securities (fair value is less than cost or amortized cost) for which an other-thantemporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

| (a) | The aggregate | amount o | i unrealized | losses: |
|-----|---------------|----------|--------------|---------|
|     |               |          |              |         |

1. Less than 12 Months \$ —
2. 12 Months or Longer \$ —

(b) The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months \$ —
2. 12 Months or Longer \$ —

(5) Management regularly reviews the value of the Company's investments. If the value of any investment falls below its cost basis, the decline is analyzed to determine whether it is an other-than-temporary decline in

value. To make this determination for each security, the Company considers its intent to sell the security and whether it is more likely than not that the Company would be required to sell the security before recovery, extent and duration of the decline, failure of the issuer to make scheduled interest or principal payments, change in rating below investment grade and adverse conditions specifically related to the security, an industry, or a geographic area.

Based on that analysis, management makes a judgment as to whether the loss is other-than-temporary. If the loss is other-than-temporary, an impairment charge is recorded within net realized investment gains in the statements of operations in the period such determination is made. No other-than-temporary impairments were recognized for the six months ended June 30, 2021. As of June 30, 2021, the Company held no other-than-temporarily impaired securities.

#### F. Joint and Several Liabilities

No significant change from year end 2020. Not applicable.

#### G. All Other Contingencies

The Company has no material contingent liabilities other than those described below regarding the contingency reserve for mortgage guaranty insurance.

Mortgage guaranty insurers are required to establish a special contingency reserve from unassigned surplus, with annual contributions equal to the greater of (1) 50% of net earned premiums or (2) minimum policyholders' position divided by seven. The purpose of this reserve is to protect policyholders against the effects of adverse economic cycles. The contribution to contingency reserves for any period is released to unassigned funds after 120 months unless it is released prior to that time with the prior consent of the Wisconsin OCI.

Sec. 3.09 (14) of the Wisconsin Administrative Code ("Wisconsin Code") allows withdrawals from the reserve in any year to the extent that incurred claims and claim adjustment expenses exceed 35% of earned premiums. Additionally,

in order to receive a tax benefit for the deduction of the additions to the statutory contingency reserve, the Company may purchase U.S. government issued tax and loss bonds in the amount equal to the tax benefit. These non-interest-bearing bonds are held in investments for maintaining the statutory liability for ten years or until such time as the contingency reserve is released back into surplus.

As of June 30, 2021 and December 31, 2020, the company has recorded contingency reserves of \$8,710,088 and \$8,377,695, respectively. The contingency reserve calculation is based on 50% of gross premiums earned for the six months ended June 30, 2021 and year ended December 31, 2020. The Company did not have contingency reserve withdrawals for the six months ended June 30, 2021 and year ended December 31, 2020.

Per the Wisconsin Code, the Company records changes in the contingency reserve through the income statement as an underwriting expense, which differs from NAIC SAP. See Note 1 - Item A - Accounting Practices above.

As of June 30, 2021 and December 31, 2020, the Company had net admitted assets of \$296,966 and \$201,474 respectively, related to premiums receivable due from policyholders. The Company routinely assesses the collectability of these receivables. All premiums receivable outstanding for 90 days or more is reclassified as nonadmitted. For premiums receivable outstanding for less than 90 days, the Company establishes an allowance for uncollectible premiums directly reducing net admitted premiums receivables. The allowance is based on the Company's recent collection experience with uncollectible amounts related to operational reasons (such as delayed servicer reporting). The Company has not experienced any uncollectible amounts due to the credit worthiness of loan servicers. The potential for any additional loss is not expected to be material to the Company's financial condition.

There were no transfers between Level 1 and Level 2 of the fair value hierarchy during the six months ended June 30, 2021.

The following describes the valuation techniques used by the Company to determine the fair value of financial instruments held as of June 30, 2021.

The Company established a fair value hierarchy by prioritizing the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

- Level 1 Fair value measurements based on quoted prices in active markets that we have the ability to access for
  identical assets or liabilities. Market price data generally is obtained from exchange or dealer markets. We do
  not adjust the quoted price for such instruments; and
- Level 2 Fair value measurements based on inputs other than quoted prices included in Level 1 that are
  observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar
  assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that
  are not active, and inputs other than quoted prices that are observable for the asset or liability, such as interest
  rates and yield curves that are observable at commonly quoted intervals; and

• Level 3 - Fair value measurements based on valuation techniques that use significant inputs that are unobservable. Both observable and unobservable inputs may be used to determine the fair values of positions classified in Level 3. The circumstances for using these measurements include those in which there is little, if any, market activity for the asset or liability. Therefore, we must make certain assumptions, which require significant management judgment or estimation about the inputs a hypothetical market participant would use to value that asset or liability.

The level of market activity used to determine the fair value hierarchy is based on the availability of observable inputs market participants would use to price an asset or a liability, including market value price observations.

#### 21. Other Items

#### A. Unusual or Infrequent Items

On January 30, 2020, the WHO declared the outbreak of COVID-19 a global health emergency and subsequently characterized the outbreak as a global pandemic on March 11, 2020. In an effort to stem contagion and control the COVID-19 pandemic, the population at large severely curtailed day-to-day activity and local, state and federal regulators imposed a broad set of restrictions on personal and business conduct nationwide. The COVID-19 pandemic, along with the widespread public and regulatory response, caused a dramatic slowdown in U.S. and global economic activity and a record number of Americans were furloughed or laid-off in the ensuing downturn.

The global dislocation caused by COVID-19 was unprecedented. In response to the COVID-19 outbreak and uncertainty that it introduced, we activated our disaster continuity program to ensure our employees were safe and able to manage our business without interruption. We pursued a broad series of capital and reinsurance transactions to bolster our balance sheet and expand our ability to serve our customers and their borrowers, and we updated our underwriting guidelines and policy pricing in consideration of the increased level of macroeconomic volatility.

The U.S. housing market demonstrated notable resiliency in the face of COVID-19 stress, with significant purchase demand, record levels of mortgage origination activity and nationwide house price appreciation emerging shortly after the onset of the pandemic. More recently, the broad resumption of personal and business activity nationwide has prompted a sharp economic rebound and provided hope for a sustainable economic recovery.

While there is increased optimism that the acute economic impact of COVID-19 has begun to recede, the pandemic continues to affect communities across the U.S. and poses significant risk globally. The path and pace of global economic recovery will depend, in large part, on the course of the virus (including the newly emerged Delta variant), which itself remains unknown and subject to risk. Given this uncertainty, we are not able to fully assess or estimate the ultimate impact COVID-19 will have on the mortgage insurance market, our business performance or our financial position including our new business production, default and claims experience, and investment portfolio results at this time.

#### 25. Changes in Incurred Losses and Loss Adjustment Expenses

A. Changes in Incurred Losses and Loss Adjustment Expenses

Consistent with NMIC, the Company's practice is to establish claim reserves only for loans in default. A loan is not considered to be in default for claim reserve purposes until the payment date at which a borrower has missed the preceding two or more consecutive monthly payments. The Company also reserves for claims incurred but not yet reported. However, and consistent with the industry, the Company does not establish claim reserves for anticipated future claims on insured loans that are not currently in default. The Company does not adjust premiums on policies currently in-force based on past claim activity.

The Company solely acts in the capacity of a mortgage guaranty reinsurer to NMIC. The Company incurred claims and claim adjustment expenses of \$226,072 and \$231,592 as of June 30, 2021 and December 31, 2020, respectively. During the six months ended June 30, 2021, the Company had a \$35,884 favorable prior year development for the provision for incurred claims and claim adjustment expenses attributable to insured events for prior years. Loss reserves remaining as of June 30, 2021 for defaults occurring in prior years have been reduced to \$188,361, following re-estimation of unpaid claims and claim adjustment expenses, and due to cures and claim payments. The net decrease in the loss reserves as of the end of the period is the result of claim payments of \$7,348, partially offset by the net increase of \$1,827 in incurred claims and claim adjustment expenses. Original loss reserve estimates will be increased or decreased as additional information becomes known regarding individual claims and as claims are settled.
