1. Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of National Mortgage Reinsurance Inc One ("Re One" or the "Company"), are presented on the basis of accounting practices prescribed or permitted by the Wisconsin Office of the Commissioner of Insurance ("Wisconsin OCI").

The Wisconsin OCI recognizes only statutory accounting practices prescribed or permitted by the State of Wisconsin for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Wisconsin Insurance Statutes. The National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures* manual, version effective January 1, 2001, ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the State of Wisconsin. The state of Wisconsin has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. Specifically, Wisconsin domiciled companies record changes in the contingency reserve through the income statement as an underwriting deduction. In NAIC SAP, changes in the contingency reserve are recorded directly to unassigned surplus.

The Wisconsin Commissioner of Insurance (the "Commissioner") has the right to permit other specific practices that deviate from prescribed practices.

A reconciliation of net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Wisconsin is shown below:

| | State of Domicile | December 31, 2017 | December 31, 2016 |

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Ohio regulation limits the amount of risk a mortgage insurer may retain on a single loan to 25% of the borrower's indebtedness and, as a result, the portion of such insurance in excess of 25% must be reinsured. NMIC and Re One have entered into a primary excess share reinsurance agreement, effective August 1, 2012, and a facultative pool reinsurance agreement, effective September 1, 2013, under which NMIC cedes premiums, loss reserves and claims to Re One on an excess share basis for any primary or pool policy which offers coverage greater than 25% on any loan insured thereunder, after giving effect to third-party reinsurance. NMIC will use reinsurance provided by Re One solely for purposes of compliance with Ohio's coverage limit. The facultative pool reinsurance agreement was amended effective September 1, 2016, to reduce the risk ceded by NMIC to Re One in connection with the inception of the 2016 QSR Transaction.

During April 2013, NMIC wrote its first mortgage guaranty insurance policy and began ceding premium and risk to the Company under an affiliate reinsurance agreement the following month. Premiums for primary mortgage insurance policies may be paid in a single payment at origination (single premium), on a monthly installment basis (monthly premium) or on an annual installment basis (annual premium), with such election and payment type fixed at policy inception. Premiums written at origination for single premium policies are initially deferred as unearned premium reserve and amortized into earnings over the estimated policy life in accordance with the anticipated expiration of risk. Monthly premiums are recognized as revenue in the month billed and when the coverage is effective. Annual premiums are initially deferred and earned on a straight-line basis over the year of coverage. Premiums written on pool transactions are earned over the period that coverage is provided. Upon cancellation of a policy, all remaining non-refundable deferred and unearned premium is immediately earned, and any refundable premium is returned to the policyholder. Premiums returned to the policyholder are recorded as a reduction of written and unearned premiums in the current period.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds are stated at amortized cost using the effective interest method.

- (3) The Company owns no common stock.
- (4) The Company owns no preferred stock.
- (5) The Company owns no mortgage loans.
- (6) Loan-backed securities are valued using the retrospective method and are stated at amortized cost or fair value in accordance with their NAIC designation.
- (7) The Company has no investments in subsidiaries or controlled and affiliated entities.
- (8) The Company has no investments in joint ventures, partnerships or limited liability companies.
- (9) The Company owns no derivative instruments.
- (10) The Company will use anticipated investment income as a factor in the premium deficiency calculation.
- (11) NMIC's practice is to establish insurance claim reserves only for loans in default. NMIC does not consider a loan to be in default for claim reserve purposes until it receives notice from the servicer that a borrower has failed to make two regularly scheduled payments and is at least sixty days in default. Default is defined in NMIC's MI policies as the failure by a borrower to pay when due an amount equal to the scheduled mortgage payment due under the terms of a loan or the failure by a borrower to pay all amounts due under a loan after the exercise of the due on sale clause of such loan. In addition to reserves on reported defaults, NMIC establishes reserves for estimated claims incurred on loans that have been in default for at least sixty days that have not yet been reported to us by the servicers (this is often referred to as "incurred but not reported" or "IBNR").

The Company will assume case claim and IBNR reserves from NMIC, once such reserves are established by NMIC and ceded to the Company in accordance with their underlying reinsurance agreements.

Consistent with industry accounting practices, NMIC will not establish claim reserves for anticipated future claims on insured loans that are not currently in default.

The establishment of claim and IBNR reserves is subject to inherent uncertainty and requires significant judgment by management. Changes in claim reserves can materially affect the Company's net income or loss. The Company's ultimate liabilities may vary significantly from estimates.

- (12) The Company's capitalization policy has not changed from the prior period.
- (13) The Company does not have any pharmaceutical rebate receivables.
- D. Going Concern

The Company has no substantial doubt about its ability to continue as a going concern.

- D. Loan-Backed Securities
 - (1) The Company uses widely accepted models for prepayment assumptions in valuing loan-backed securities with inputs from major third party data providers. The Company's investment policy complies with SSAP No. 43R *Loan-backed and Structured Securities* as adopted by the Wisconsin OCI.
 - (2) The Company has not recognized any other-than-temporary impairments as of December 31, 2017.
 - (3) The Company has not recognized any other-than-temporary impairments as of December 31, 2017.
 - (4) All impaired loan-backed securities (fair value is less than cost or amortized cost) for which an other than temporary impairment has not been recognized in earnings as a realized loss:
 - (a) The aggregate amount of unrealized losses:

1. Less than 12 Months \$ (23,609) 2. 12 Months or Longer \$ (168,149)

(b) The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months \$ 12,664,976 2. 12 Months or Longer \$ 6,587,509

(5) Management regularly reviews the value of the Company's investments. If the value of any investment falls below its cost basis, the decline is analyzed to determine whether it is an other-than-temporary decline in value. To make this determination for each security, the Company considers its intent to sell the security and whether it is more likely than not that the Company would be required to sell the security before recovery, extent and duration of the decline, failure of the issuer to make scheduled interest or principal payments, change in rating below investment grade and adverse conditions specifically related to the security, an industry, or a geographic area.

Based on that analysis, management makes a judgment as to whether the loss is other-than-temporary. If the loss is other-than-temporary, an impairment charge is recorded within net realized investment gains in the statements of operations in the period such determination is made. No other-than-temporary impairments were recognized for the years ended December 31, 2017 and December 31, 2016. As of December 31, 2017, the Company held no other-than-temporarily impaired securities.

The Tax Cuts and Jobs Act (the Act) was enacted on December 22, 2017. The Act reduces the statutory U.S. federal corporate income tax rate from 35% to 21%. At December 31, 2017, we have not completed our accounting for the tax effects of the enactment of the Act; however, in certain cases, as described below, we have made a reasonable estimate of the effects on our existing deferred tax balances. In other cases, we have not been able to make a reasonable estimate and continue to account for those items based on our existing accounting under ASC 740, Income Taxes, and the provisions of the tax laws that were in effect immediately prior to the enactment. For the items for which we were able to determine a reasonable estimate, we recognized a provisional amount of \$6,000, which is included as a component of income tax expense from continuing operations.

Provisional amounts

Deferred tax assets and liabilities: We re-measured our deferred tax assets and liabilities based on the rate at which they are expected to reverse in the future, which is generally 21%. However, we are still analyzing certain aspects of the Act and refining our calculations, which could potentially affect the measurement of these balances or potentially give rise to further increases or decreases to our deferred tax amounts. The provisional amount recorded related to the remeasurement of our deferred tax balance was \$6,000.

- E. Net operating loss carryforwards and paid taxes available for future recoupment
 - The following are net operating losses for the current and prior years available to offset future taxable income:
 None.
 - 2. The following are income taxes incurred in the current and prior years that will be available for recoupment in the event of future net losses:

None.

3. The following are aggregate amount of deposits admitted under Section 6603 of the Internal Revenue Code:

None.

F. Consolidated federal income tax return

1. The Company's federal income tax return is consolidated with the following entities: NMI Holdings, Inc.

National Mortgage Insurance Corporation

NMI Services, Inc.

2. The Company is a party to that certain tax sharing agreement among NMI and its subsidiaries, dated August 23, 2012, as amended on September 1, 2016. Under this agreement, each of the parties mutually agrees to file a consolidated federal income tax return for 2013 and subsequent tax years, with NMI as the direct filer and tax payer. The tax liability of each insurer that is party to the agreement is limited to the amount of liability it would incur if it filed a separate tax return. All settlements under this agreement between NMI and any insurer that is party to the agreement shall be made no later than 60 days following the filing of the applicable federal corporate income tax return with the Internal Revenue Service ("IRS"), including subsequent amended filings and IRS adjustments, except when a refund is due to an insurer, in which case payment shall be made to the insurer within 60 days following NMI's receipt of the applicable tax refund.

G. Federal or foreign income tax loss contingencies

The Company does not have any tax loss contingencies for which it is reasonably possible that the total liability will significantly increase within twelve months of the reporting date.

10. Information Concerning Parent, Subsidiaries, and Other Related Parties

A. Nature of Relationships

NMIC and the Company are wholly owned by NMI Holdings, Inc., a Delaware corporation ("NMI"). On November 8, 2013, NMI completed an initial public offering and its common stock began trading on the NASDAQ under the symbol "NMIH."

B. Detail of Transactions Greater than ½% of Admitted Assets

No capital contributions were received for the year ended December 31, 2016 and 2017.

C. Change in Terms of Intercompany Arrangements

In May 2017, National Mortgage Insurance Corporation ("NMIC") entered into an aggregate excess of loan reinsurance agreement (the "XOL Agreement") with Oaktown Re, Ltd. ("Oaktown Re"). Concurrent with the establishment of the XOL Agreement, NMIC amended the terms of its Primary Excess Share reinsurance agreement with Re One. Under the amendment, the reinsurance premium rate previously paid by NMIC to Re One was adjusted by a factor of 0.9231 to account for the benefit that Re One receives under the XOL agreement. The adjustment was appropriate because reinsurance coverage provided by Oaktown Re to NMIC under the XOL Agreement inures to the benefit of Re One as losses ceded to Oaktown Re under the XOL Agreement are gross of any affiliate reinsurance.

D. Amounts Due to or from Related Parties

The Company reported \$74,568 and \$98,254 due to NMI and \$103,846 and \$2,107,430 due to NMIC as of December 31, 2017 and 2016, respectively. *See Note 10 - F - Management, Service contracts, Cost Sharing Agreements*.

E. Guarantees or Undertaking for Related Parties

The Company has no guarantees or undertaking for related parties.

F. Management, Service contracts, Cost Sharing Arrangements

The Company is party to a cost allocation agreement with NMI, NMIC and NMI Services, Inc., hereinafter collectively referred to as "Parties", and singularly as "Party" or "Affiliate". Each of the parties to the agreement may provide any of the following services to any other party under the agreement, including: general management, underwriting, customer service, claims processing, legal, accounting and actuarial services.

For third party goods and/or services purchased by a Party for an Affiliate, the allocation of costs shall be determined solely by the invoice from the third party. For third party goods and/or services purchased by a Party for more than one Affiliate (which may include the Party itself), the allocation of costs shall be determined by: (i) an invoice directly from the 3rd party providing the good and/or service, and (ii) an allocation of such costs developed using appropriate quantifiable measures supporting the goods received and/or services performed. For services provided solely by one or more Parties to one or more Affiliates (i.e., intercompany related services) the charges will be determined by direct employee costs including salaries, bonuses, incentives, benefits, payroll taxes and related out-of-pocket expenses actually incurred by such employees. In all three cases, all charges and fees for any goods or services provided to the Affiliates shall not exceed the actual costs incurred by the Parties. NMI is the principal employer of personnel among the parties and it is anticipated that most costs will be incurred by NMI and allocated to its insurance subsidiaries. Settlements are required no later than 60 days after each calendar quarter.

G. Nature of Relationships that Could Affect Operating Results or Financial Position

All outstanding shares of the Company are owned by NMI.

H. Amount Deducted for Investment in Upstream Company

The Company does not own any shares of upstream intermediate or ultimate parent, either directly or indirectly, via a downstream subsidiary, controlled or affiliated entity.

I. Detail of Investments in Affiliates Greater than 10% of Admitted Assets

The Company has no investments in subsidiaries or controlled and affiliated entities.

J. Write downs for Impairment of Investments in SCA entities

The Company has no investments in subsidiaries or controlled and affiliated entities.

K. Foreign Subsidiary Valued Using CARVM

(2) Dividend Rate of Preferred Stock

The Company has no preferred stock outstanding.

(3) Dividend Restrictions

The Company's ability to pay dividends to its parent is limited by state insurance laws of the State of Wisconsin and certain other states. Under Wisconsin law, the Company may pay dividends up to specified levels (i.e., "ordinary" dividends) with 30 days' prior notice to the Wisconsin OCI. Dividends that exceed ordinary dividends (i.e., "extraordinary" dividends) are subject to the Wisconsin OCI's prior approval. Under Wisconsin insurance laws, an ordinary dividend is defined as any payment or distribution that together with other dividends and distributions made within the preceding 12 months does not exceed the lesser of (i) 10% of the insurer's statutory policyholders' surplus as of the preceding December 31 or (ii) adjusted net income. Adjusted net income is calculated as the greater of (a) the net income, excluding capital gains, for the immediately preceding calendar year or (b) the aggregate net income, excluding capital gains, for the 3 immediately preceding calendar years, minus shareholder distributions made in the first two of three aforementioned calendar years. Dividends that exceed this amount are extraordinary and require prior approval of the Commissioner. Additionally, statutory minimum capital requirements may limit the amount of dividend that the Company may pay.

In addition, California requires ordinary dividends to be paid from positive unassigned funds (surplus).

(4) Dates and Amounts of Dividends Paid

The Company has paid no dividends.

(5) Amount of Ordinary Dividends That May Be Paid

The amount of Ordinary Dividends that may be paid by the company is \$504,772. See Item 3 - Dividend Restrictions above.

(6) Restrictions of Unassigned Funds

14. Liabilities, Contingencies and Assessments

A. Contingent Commitments

The Company has no contingent commitments.

B. Assessments

The Company has no assessments that could have a material effect.

C. Gain Contingencies

The Company has no gain contingencies.

D. Claims Related Extra Contractual Obligation and Bad Faith Stemming from Lawsuits

The Company has no claims related extra contractual obligations or bad faith losses stemming from lawsuits.

E. Product Warranties

The Company has no product warranties.

F. Joint and Several Liabilities

The Company has no joint or several liabilities.

G. All Other Contingencies

The Company has no material contingent liabilities other than those described below regarding the contingency reserve for mortgage guaranty insurance.

Mortgage guaranty insurers are required to establish a special contingency reserve from unassigned surplus, with annual contributions equal to the greater of (1) 50% of net earned premiums or (2) minimum policyholders' position divided by seven. The purpose of this reserve is to protect policyholders against the effects of adverse economic cycles. The contribution to contingency reserves for any period is released to unassigned funds after 120 months unless it is released prior to that time with the prior consent of the Wisconsin OCI.

Sec. 3.09 (14) of the Wisconsin Administrative Code ("Wisconsin Code") allows withdrawals from the reserve in any year to the extent that incurred claims and claim adjustment expenses exceed 35% of earned premiums. Additionally, in order to receive a tax benefit for the deduction of the additions to the statutory contingency reserve, the Company may purchase U.S. government issued tax and loss bonds in the amount equal to the tax benefit. These non-interest-bearing bonds are held in investments for maintaining the statutory liability for ten years or until such time as the contingency reserve is released back into surplus.

For the years ended December 31, 2016 and 2015, the company has recorded contingency reserves of \$6,884,490 and \$6,619,861, respectively. The contingency reserve calculation is based on 50% of gross premiums earned for the years ended December 31, 2017 and December 31, 2016.

Per the Wisconsin Code, the Company records changes in the contingency reserve through the income statement as an underwriting expense, which differs from NAIC SAP. *See Note 1 - Item A - Accounting Practices above.*

15. Leases

A. Lessee Operating Lease

The Company has no lease obligation. NMI entered into an office facility lease effective July 1, 2012 for a term of two years. In October 2013, NMI amended the facility's lease to (i) add 23,000 square feet of furnished office space, and (ii) extend the facility's lease period through October 31, 2017. In December 2016, the Company amended its lease to extend the term of the lease through March 2023. Through a cost allocation agreement with NMI, 1% of the lease expense is allocated to the Company. See Note 10 - Information Concerning Parent, Subsidiaries and Other Related Parties - F - Management, Service contracts, Cost Sharing Arrangements for more information on the cost allocation agreement.

The following describes the valuation techniques used by the Company to determine the fair value of financial instruments held as of December 31, 2017 and December 31, 2016.

The Company established a fair value hierarchy by prioritizing the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

- Level 1 Fair value measurements based on quoted prices in active markets that we have the ability to access for identical assets or liabilities. Market price data generally is obtained from exchange or dealer markets. We do not adjust the quoted price for such instruments; and
- Level 2 Fair value measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals; and
- Level 3 Fair value measurements based on valuation techniques that use significant inputs that are unobservable. Both observable and unobservable inputs may be used to determine the fair values of positions classified in Level 3. The circumstances for using these measurements include those in which there is little, if any, market activity for the asset or liability. Therefore, we must make certain assumptions, which require significant management judgment or estimation about the inputs a hypothetical market participant would use to value that asset or liability.

The level of market activity used to determine the fair value hierarchy is based on the availability of observable inputs market participants would use to price an asset or a liability, including market value price observations.

25. Changes in Incurred Losses and Loss Adjustment Expenses

A. The Company solely acts in the capacity of a mortgage guaranty reinsurer to NMIC. The Company incurred claims and claim adjustment expenses of \$176,451 and \$224,437 for the years ended December 31, 2017 and December 31, 2016, respectively. There was a \$19 thousand favorable prior year claims development during the year ended December 31, 2017. Claims reserve remaining as of December 31, 2017 for prior years are \$83,827 following re-estimation of unpaid claims and claim adjustment expenses. The increase in claims reserves at the end of the period is generally the result of loan defaults in the current year. Original claims reserve estimates are increased or decreased as additional information becomes known regarding individual claims.

Consistent with NMIC, the Company's practice is to establish claim reserves only for loans in default. A loan is not considered to be in default for claim reserve purposes until NMIC receives notice from the servicer that a borrower has failed to make two consecutive regularly scheduled payments and is at least sixty days in default. The Company also reserves for claims incurred but not yet reported. However, and consistent with the industry, the Company does not establish claim reserves for anticipated future claims on insured loans that are not currently in default. The Company does not adjust premiums on policies currently in-force based on past claim activity.

The following tables provide claim development data, by accident year, and a reconciliation to the reserve for insurance claims and claim expenses:

| | Cumulative Incurred Claims and Allocated Claims Adjustment Expenses, As of December 31, 2017 net of Reinsurance (1) | | | | | | | |
