Notes to Financial Statements

No1. Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of National Mortgage Insurance Corporation (“NMIC” or the “Company”), are presented on the basis of accounting practices prescribed or permitted by the Wisconsin Office of the Commissioner of Insurance (“Wisconsin OCI”).

The Wisconsin OCI recognizes only statutory accounting practices prescribed or permitted by the State of Wisconsin for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Wisconsin Insurance Statutes. The National Association of Insurance Commissioners’ (“NAIC”) *Accounting Practices and Procedures* manual, version effective January 1, 2001, (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the State of Wisconsin. The state of Wisconsin has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. Specifically, Wisconsin domiciled companies record changes in the contingency reserve through the income statement as an underwriting deduction. In NAIC SAP, changes in the contingency reserve are recorded directly to unassigned surplus.

The Wisconsin Commissioner of Insurance (the “Commissioner”) has the right to permit other specific practices that deviate from prescribed practices.

A reconciliation of net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Wisconsin is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums written on a single premium basis and an annual premium basis are initially deferred as unearned premium reserve and earned over the policy term. Premiums written on policies covering more than one year are amortized over the policy life in accordance with the expiration of risk which is the anticipated claim payment pattern based on industry experience. Premiums written on annual policies are earned on a monthly pro rata basis. Premiums written on monthly policies are earned as coverage is provided. Premiums written on pool transactions are earned over the period that coverage is provided. Upon cancellation of a policy, all premium that is non-refundable is immediately earned. Any refundable premium is returned to the policyholder. Premiums returned to policyholders are recorded as a reduction of written and earned premiums in the current period, which affects premiums written and earned in those periods.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds are stated at amortized cost using the effective interest method.
- (3) The Company owns no common stock.
- (4) The Company owns no preferred stock.
- (5) The Company owns no mortgage loans.

Notes to Financial Statements

- (6) Loan-backed securities are valued using the retrospective method and are stated at amortized cost or fair value in accordance with their NAIC designation.
- (7) The Company has no investments in subsidiaries or controlled and affiliated entities.
- (8) The Company has no investments in joint ventures, partnerships or limited liability companies.
- (9) The Company owns no derivative instruments.
- (10) The Company uses anticipated investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53, *Property-Casualty Contracts - Premiums*.
- (11) The Company's practice is to establish insurance claim reserves only for loans in default. The Company does not consider a loan to be in default for claim reserve purposes until it receives notice from the servicer that a borrower has failed to make two regularly scheduled payments and is at least 60 days in default. Default is defined in NMIC's MI policies as the failure by a borrower to pay when due an amount equal to the scheduled mortgage payment due under the terms of a loan or the failure by a borrower to pay all amounts due under a loan after the exercise of the due on sale clause of such loan. In addition to reserves on reported defaults, the Company establishes reserves for estimated claims incurred on loans that have been in default for at least 60 days that have not yet been reported to us by the servicers (this is often referred to as "incurred but not reported" or "IBNR").

Consistent with industry accounting practices, NMIC will not establish claim reserves for anticipated future claims on insured loans that are not currently in default.

The establishment of claim and IBNR reserves is subject to inherent uncertainty and will require significant judgment by management. Changes in claim reserves can materially affect the Company's net income or loss. The Company's ultimate liabilities may vary significantly from estimates.

- (12) The Company's capitalization policy has not changed from the prior period.
- (13) The Company does not have any pharmaceutical rebate receivables.

2. 12 Months or Longer	\$ (417,784)

Notes to Financial Statements

1. Less than 12 Months	\$	302,075,496
2. 12 Months or Longer	\$	26,510,823

- (5) Management regularly reviews the value of the Company's investments. If the value of any investment falls below its cost basis, the decline is analyzed to determine whether it is an other-than-temporary decline in value. To make this determination for each security, the Company considers its intent to sell the security and whether it is more likely than not that the Company would be required to sell the security before recovery, extent and duration of the decline, failure of the issuer to make scheduled interest or principal payments, change in rating below investment grade and adverse conditions specifically related to the security, an industry, or a geographic area.

Based on that analysis, management makes a judgment as to whether the loss is other-than-temporary. If the loss is other-than-temporary, an impairment charge is recorded within net realized investment gains in the statements of operations in the period the determination is made. For the year ended December 31, 2015, we recognized an other-than-temporary impairment (OTTI) loss of \$85.6 thousand due to a planned sales transaction that we expect will result in a loss in February 2016. No other-than-temporary impairments were recognized for the year ended December 31 2014.

In determining net income, an insurer may carry forward net income (excluding realized capital gains) from the previous two calendar years that has not already been paid out as a dividend. Dividends that exceed this amount are "extraordinary dividends", which require prior approval of the Commissioner.

California prohibits dividends except from undivided profits remaining on hand over and above its paid-in capital, paid-in surplus and contingency reserves. Additionally, statutory minimum capital requirements may limit the amount of dividend that the Company may pay. For example, the State of Florida requires mortgage guaranty insurers to hold capital and surplus not less than the lesser of (i) 10% of its total liabilities, or (ii) \$100 million.

The Company has not paid or declared any ordinary dividends. In connection with its admission to several states, the Company entered into commitments with the Alabama Department of Insurance, the Arizona Department of Insurance, the California Insurance Department, the Florida Office of Insurance Regulation, the Missouri Department of Insurance, the New York State Department of Financial Services, the Ohio Department of Insurance, and the Texas Commissioner of Insurance not to pay or declare any dividends for the three year period ending January 16, 2016.

The contribution to contingency reserves for any period is released to unassigned funds after 120 months unless it is released prior to that time with the express consent of the Wisconsin OCI.

Sec. 3.09(14) of the Wisconsin Administrative Code ("Wisconsin Code") allows withdrawals from the reserve in any year to the extent that incurred claims and claim adjustment expenses exceed 35% of earned premiums.

The company established contingency reserves in the amount of \$28,903,817 and \$7,944,769 as of December 31, 2015 and 2014, respectively. The contingency reserve calculation is based on 50% of premiums earned for the years ended December 31, 2015 and 2014.

Per the Wisconsin Code, the Company records changes in the contingency reserve through the income statement as an underwriting expense, which differs from NAIC SAP. See Note 1 - Item A - Accounting Practices above.

The fair values are also categorized into the three- levels as described below.

The following describes the valuation techniques used by the Company to determine the fair value of financial instruments held as of December 31, 2015 and December 31, 2014.

The Company established a fair value hierarchy by prioritizing the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

- Level 1 - Quoted prices in Active Markets for Identical Assets and Liabilities. This category includes cash and US Treasury Securities. Unadjusted quoted prices for identical assets or liabilities in active markets that are accessible at the measurement date for identical assets or liabilities;
- Level 2 - Significant Other Observable Inputs. This category is for items measured at fair value on a recurring basis, including common stock, which are not exchange-traded. Prices or valuations based on observable inputs other than quoted prices in active markets for identical assets and liabilities; and
- Level 3 - Significant Unobservable Inputs. Unobservable inputs that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. The Company has no assets or liabilities in this category.

The level of market activity used to determine the fair value hierarchy is based on the availability of observable inputs market participants would use to price an asset or a liability, including market value price observations.

21. Other Items

A. Unusual or Infrequent Items

Organizational Examination:

The Wisconsin OCI completed an Organizational Examination of NMIC on September 27, 2012. The period under exam was June 30, 2009 through June 30, 2012. The Examination did not result in any recommendations, reclassification of or adjustment to the balances reported by the company.

GSE Approval:

The Company was approved as an eligible mortgage guaranty insurer by Freddie Mac and Fannie Mae, on January 15, 2013 and January 16, 2013, respectively, subject to continuing to comply with certain requirements. Fannie Mae and Freddie Mac have imposed certain capitalization, operational and reporting conditions in connection with their approvals of NMIC as a qualified mortgage guaranty insurer. Some of these conditions remain in effect for a three year period from the date of GSE approval while others do not expressly expire. These conditions require, among other things, that NMIC:

- maintain minimum capital of \$150,000,000;
- operate at a risk-to-capital ratio not to exceed 15:1 for its first three years and then pursuant to the GSE eligibility requirements then in effect;

Notes to Financial Statements

- not declare or pay dividends to affiliates or to NMI for its first three years, then pursuant to the GSE eligibility requirements;
- not enter into capital support agreements or guarantees for the benefit of, or purchase or otherwise invest in the debt of, affiliates without the prior written approval of the GSEs for its first three years, then pursuant to the GSE eligibility requirements;
- not enter into reinsurance or other risk share arrangements without the GSEs' prior written approval for its first three years, then pursuant to the GSE eligibility requirements; and
- at the direction of one or both of the GSEs, re-domicile from Wisconsin to another state. The conditional approvals also include certain additional conditions, such as limits on costs allocated to NMIC under affiliate expense sharing arrangements, risk concentration, rates of return, requirements to obtain a financial strength rating, provision of ancillary services (i.e., non-insurance) to customers, transfers of underwriting to affiliates, notification requirements regarding change of ownership and new five percent shareholders, provisions regarding underwriting policies and claims processing as well as certain other obligations.

Licensing:

The Company requires a certificate of authority, or insurance license, in each state or jurisdiction in which it issues insurance policies. NMIC is currently licensed in all 50 states and D.C.

As conditions of obtaining licenses in Alabama, Arizona, California, Florida, Missouri, New York, Ohio and Texas, NMIC entered into agreements with the Alabama Department of Insurance ("ALDOI"), the California Insurance Department ("CADOI"), the Florida Office of Insurance Regulation ("FLDOI"), the Missouri Department of Insurance ("MODOI"), the New York State Department of Financial Services ("NYDOI"), the Ohio Department of Insurance ("OHDOI") and the Texas Commissioner of Insurance ("TXDOI"). The agreements with the CADOI, FLDOI, MODOI, NYDOI, OHDOI and TXDOI, provide, among other things, that:

- NMIC (i) refrain from paying any dividends; (ii) retain all profits; and (iii) other than in Florida, maintain a risk-to-capital ratio not to exceed 20 to 1, for three years from the date of GSE Approval (i.e., until January 2016); and
- certain start-up compensation expenses and equity compensation in the form of stock options and restricted stock units ("RSUs") shall not be allocated to or assumed as a cost or expense by NMIC.

In its agreements with the FLDOI and NYDOI, NMIC is required to obtain the FLDOI's and NYDOI's respective prior written approvals to significantly deviate from the plan of operations and/or financial projections that were submitted to the FLDOI and NYDOI in connection with NMIC's license applications in those states.

In connection with NMIC's license applications in California, Missouri and New York, NMIH entered into agreements with the CADOI, MODOI and NYDOI requiring NMIH to contribute capital to NMIC as necessary to maintain NMIC's risk-to-capital ratio at or below 20 to 1 for three years from the date of GSE Approval. In addition, the operation plan filed with the Wisconsin OCI and other state insurance departments in connection with NMIC's license applications includes the expectation that NMIH will downstream additional capital, if needed, so that NMIC does not exceed an 18 to 1 risk-to-capital ratio. Re One is also a party to the agreement with the CADOI.

Regulatory Update:

On April 17, 2015, the FHFA published final updated PMIERS that became effective on December 31, 2015 (Effective Date) for existing, GSE-approved private mortgage insurers, i.e., *Approved Insurers*. (Italicized terms have the same meaning that such terms have in the PMIERS, as described below.) The PMIERS establish operational, business, remedial and financial requirements applicable to *Approved Insurers*. Under the PMIER financial requirements, *Approved Insurers* must maintain available assets that equal or exceed minimum required assets, which is an amount equal to the greater of (i) \$400 million or (ii) *a total risk-based required asset amount*. The risk-based required asset amount is a function of the risk profile of an Approved Insurer's net RIF, calculated by applying certain risk-based factors derived from tables set out in the PMIERS to the net RIF. The *risk-based required asset amount* for primary insurance is subject to a floor of 5.6% of total, performing, primary RIF, and the *risk-based required asset amount* for pool insurance considers both the factors in the tables and the net remaining stop loss for each pool insurance policy. By March 1, 2016, each Approved Insurer must certify to the GSEs that it fully complies with the PMIERS as of the Effective Date. If an Approved Insurer meets all of the PMIERS except the financial requirements, by March 31, 2016, that Approved Insurer must submit a transition plan to each GSE detailing how it will comply with the financial requirements not later than June 30, 2017 (Compliance Date). We expect NMIC to certify that it fully complies with all requirements laid out by the PMIERS by March 1, 2016. We will continue to monitor our compliance with the PMIERS financial requirements going forward and will raise additional capital to comply with these requirements if necessary.

Notes to Financial Statements

The NAIC has formed a working group to explore, among other things, whether certain states' statutory capital requirements applicable to mortgage insurers should be overhauled. The Company, along with other MI companies are working with the Mortgage Guaranty Insurance Working Group of the Financial Condition (E) Committee of the NAIC (the "Working Group"). The Working Group will determine and make a recommendation to the Financial Condition (E) Committee of the NAIC as to what changes, if any, the Working Group believes are necessary to the solvency regulation for MI companies, including changes to the Mortgage Guaranty Insurers Model Act (Model #630). The Company has provided feedback to the Working Group since early 2013, and supports more robust capital standards and continues to advocate for a strong capital model. The discussions are ongoing and the ultimate outcome of these discussions and any potential actions taken by the NAIC cannot be predicted at this time. However, given the Company's current strong capital position and having no exposure to risk written in the 2005 through 2008 book years, the Company will be well positioned to comply with new capital requirements proposed by the NAIC when they become effective.

The Company also reserves for claims incurred but not yet reported. However, and consistent with the industry, the Company does not establish claim reserves for anticipated future claims on insured loans that are not currently in default. SCHEDULE P INTERROGATORIES

1. The following questions relate to yet-to-be-issued Extended Reporting Endorsements (EREs) arising from Death, Disability, or Retirement (DDR) provisions in Medical Professional Liability Claims Made insurance policies, EREs provided for reasons other than DDR are not to be included.
- 1.1 Does the company issue Medical Professional Liability Claims-Made insurance policies that provide tail (also known as an extended reporting endorsement, or "ERE") benefits in the event of Death, Disability, or Retirement (DDR) at a reduced charge or at no additional cost? If the answer to question 1.1 is "no", leave the following questions blank. If the answer to question 1.1 is "yes", please answer the following questions:
- 1.2 What is the total amount of the reserve for that provision (DDR Reserve), as reported, explicitly or not, elsewhere in this statement (in dollars)?
- 1.3 Does the company report any DDR reserve as Unearned Premium Reserve per SSAP #65?
- 1.4 Does the company report any DDR reserve as loss or loss adjustment expense reserve?
- 1.5 If the company reports DDR reserve as Unearned Premium Reserve, does that amount match the figure on the Underwriting and Investment Exhibit, Part 1A - Recapitulation of all Premiums (Page 7) Column 2, Lines 11.1 plus 11.2?
- 1.6 If the company reports DDR reserve as loss or loss adjustment expense reserve, please complete the following table corresponding to where these reserves are reported in Schedule P:

2. The definition of allocated loss adjustment expenses (ALAE) and, therefore, unallocated loss adjustment expenses (ULAE) was changed effective January 1, 1998. This change in definition applies to both paid and unpaid expenses. Are these expenses (now reported as "Defense and Cost Containment" and "Adjusting and Other") reported in compliance with these definitions in this statement?
3. The Adjusting and Other expense payments and reserves should be allocated to the years in which the losses were incurred based on the number of claims reported, closed and outstanding in those years. When allocating Adjusting and Other expense between companies in a group or a pool, the Adjusting and Other expense should be allocated in the same percentage used for the loss amounts and the claim counts. For reinsurers, Adjusting and Other expense assumed should be reported according to the reinsurance contract. For Adjusting and Other expense incurred by reinsurers, or in those situations where suitable claim count information is not available, Adjusting and Other expense should be allocated by a reasonable method determined by the company and described in Interrogatory 7, below. Are they so reported in this Statement?
4. Do any lines in Schedule P include reserves that are reported gross of any discount to present value of future payments, and that are reported net of such discounts on page 10? If Yes, proper disclosure must be made in the Notes to Financial Statements, as specified in the Instructions. Also, the discounts must be reported in Schedule P - Part 1, Columns 32 and 33. Schedule P must be completed gross of non-tabular discounting. Work papers relating to discount calculations must be available for examination upon request. Discounting is allowed only if expressly permitted by the state insurance department to which this Annual Statement is being filed.

If not the same in all years, explain in Interrogatory 7.

- 7.1 The information provided in Schedule P will be used by many persons to estimate the adequacy of the current loss and expense reserves, among other things. Are there any especially significant events, coverage, retention or accounting changes that have occurred that must be considered when making such analyses?
