Notes to Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of National Mortgage Reinsurance Inc One (“Re One” or the “Company”), are presented on the basis of accounting practices prescribed or permitted by the Wisconsin Office of the Commissioner of Insurance (“Wisconsin OCI”).

The Wisconsin OCI recognizes only statutory accounting practices prescribed or permitted by the State of Wisconsin for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Wisconsin Insurance Statutes. The National Association of Insurance Commissioners’ (“NAIC”) *Accounting Practices and Procedures* manual, version effective January 1, 2001, (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the State of Wisconsin. The state of Wisconsin has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. Specifically, Wisconsin domiciled companies record changes in the contingency reserve through the income statement as an underwriting deduction. In NAIC SAP, changes in the contingency reserve are recorded directly to unassigned surplus.

The Wisconsin Commissioner of Insurance (the “Commissioner”) has the right to permit other specific practices that deviate from prescribed practices.

A reconciliation of net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Wisconsin is shown below:

D. Loan-Backed Securities

(1) The Company uses widely accepted models to determine prepayment assumptions in valuing loan-backed securities with inputs from major third party data providers. The Company's investment policy complies with *SSAP No. 43R - Loan-backed and Structured Securities* as adopted by the Wisconsin OCI.

(2) For the three months ended March 31, 2022, the Company did not hold securities with a recognized other-than-temporary impairment, disclosed in the aggregate, classified on the basis for the other-than-temporary impairment..

Notes to Financial Statements

(3) For the three months ended March 31, 2022, the Company did not hold securities with an other-than-temporary impairment as the present value of cash flows expected to be collected was less than the amortized cost basis of the securities.

(4) All impaired loan-backed securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

(a) The aggregate amount of unrealized losses:

1. Less than 12 Months	\$	—
2. 12 Months or Longer	\$	—

(b) The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months	\$	—
2. 12 Months or Longer	\$	—

(5) Management regularly reviews the value of the Company's investments. If the value of any investment falls below its cost basis, the decline is analyzed to determine whether it is an other-than-temporary decline in value. To make this determination for each security, the Company considers its intent to sell the security and whether it is more likely than not that the Company would be required to sell the security before recovery, extent and duration of the decline, failure of the issuer to make scheduled interest or principal payments, change in rating below investment grade and adverse conditions specifically related to the security, an industry, or a geographic area.

Based on that analysis, management makes a judgment as to whether the loss is other-than-temporary. If the loss is other-than-temporary, an impairment charge is recorded within net realized investment gains in the statements of operations in the period such determination is made. No other-than-temporary impairments were recognized for the three months ended March 31, 2022. As of March 31, 2022, the Company held no other-than-temporarily impaired securities.

15. Leases

A. Lessee Operating Leases

The Company has no lease obligation. NMIH has two operating lease agreements related to our corporate headquarters and a data center facility with original terms that range from three to seven years. In January 2022, NMIH modified the lease for the company’s corporate headquarters, securing a reduction in pricing and incremental leasehold improvement concessions, reducing the square footage of leased space and extending the remaining term through March 2030. In February 2022, NMIH renewed the lease for the company’s data center facility, extending its term through January 2024.

Under the cost allocation agreement, the Company was not allocated rental expense related to leases in the three months ended March 31, 2022. *See Note 10 – Item F – Management, Service Contracts, Cost Sharing Arrangements* for more information on the cost allocation agreement.

There were no transfers between Level 1 and Level 2 of the fair value hierarchy during the three months ended March 31, 2022.

The following describes the valuation techniques used by the Company to determine the fair value of financial instruments held as of March 31, 2022.

The Company established a fair value hierarchy by prioritizing the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

- Level 1 - Fair value measurements based on quoted prices in active markets that we have the ability to access for identical assets or liabilities. Market price data generally is obtained from exchange or dealer markets. We do not adjust the quoted price for such instruments; and
- Level 2 - Fair value measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals; and
- Level 3 - Fair value measurements based on valuation techniques that use significant inputs that are unobservable. Both observable and unobservable inputs may be used to determine the fair values of positions classified in Level 3. The circumstances for using these measurements include those in which there is little, if any, market activity for the asset or liability. Therefore, we must make certain assumptions, which require significant management judgment or estimation about the inputs a hypothetical market participant would use to value that asset or liability.

The level of market activity used to determine the fair value hierarchy is based on the availability of observable inputs market participants would use to price an asset or a liability, including market value price observations.
